- Vite, Postman

PROFILE

Highly motivated and self-taught Junior Full-Stack Developer with a passion for building clean, functional, and user-centric web applications. Proficient in PHP, Laravel, and React, with a strong emphasis on building modern UIs using Tailwind CSS and Bootstrap. Passionate about problem-solving and reverse-engineering complex systems to understand their inner workings. Despite being a fresh graduate, I am a fast learner with a "can-do" attitude, ready to tackle challenges and deliver high-quality results in a professional environment.

WORK EXPERIENCE

Independent Software Developer

Remote / Project-based

JAN 2024 - PRESENT

As a dedicated self-taught developer, I have successfully designed and deployed several full-stack web applications, focusing on robust logic and modern user experiences. My primary projects, such as I-Max Apple Products POS and Pizza POS, demonstrate my proficiency in Laravel, React, and Inertia.js, featuring comprehensive order management systems and secure user authentication. I have also developed the Mellso EV POS, integrating smooth payment workflows with a luxury-branded UI. I am a passionate problem-solver who enjoys reverse-engineering complex systems and tackling technical challenges head-on. Although I am a fresh starter in a professional setting, I am highly adaptable, eager to learn, and committed to delivering high-quality results.

KEY PROJECTS

I-Max POS and Pizza POS

Developed a full-stack POS system with multi-role access (Admin/User), featuring secure authentication, profile management, and a dynamic ordering workflow with Accept/Reject/Pending status controls.

- Stack: Laravel (PHP), Bootstrap, MySQL

Mellso EV POS System

Built a modern EV dealership POS featuring a premium UI/UX design, real-time sales tracking, and an automated payment confirmation system for seamless transaction management.

- Stack : Laravel, React, Inertia.js, MySQL
